

BEE ♥ OCH *Discovery Kit*

BODY BUTTER: **O** Deep penetrating hand/body butter made with organic pumpkin seed oil (our favorite ingredient!) and sweet orange and lemon essential oils. Apply a small amount to dry skin or eczema patches.

LIP BALM: **O** This is the original BEE-OCH product! Made with only 5 ingredients that is the perfect consistency and heals lips in just one day. Comes in Peppermint, Orange, or Tinted

SPEARMINT TOOTH POWDER: **V** Made with natural clays that gently polish and absorb toxins while the baking soda whitens and freshens breath - Wet tooth brush, dip bristles half way into powder, brush like normal. Use as a fluoride-free toothpaste alternative.

DEODORANT: **O** Made without aluminum or baking soda, our deo is an excellent option for skin sensitivities and allergies. Apply sparingly to clean underarms. Pro Tip: shaving regularly helps reduce the surface area for bacteria to live and in turn reduces odor

SKIN WHIP 5-IN-1: **O, V** One of our most versatile products, Skin Whip is used for silky soft shaving, eye makeup removal, in-shower moisturizing, dry split ends, or a deep penetrating hair mask - Used as a "wipe-off" or "rinse-off" product, rather than a leave-on moisturizer. Visit us at bee-och.com for full instructions.

BODY OIL: **O, V** You guessed it! Made with organic pumpkin seed, sunflower, orange and lavender oils for a splash of skin-soothing moisture that absorbs quickly and won't leave you dry again in an hour. Doubles as a luxurious massage oil that is sure to please the senses.

PAIN RUB: **O** Made with cooling menthol and anti-inflammatory eucalyptus that provide nearly instant relief. Use full size twist-up tube to apply directly to sore muscles and joints, or across neck and shoulders for tension and headaches. Avoid eye contact.

MOSQUITO REPELLENT: **O, V** Made with a blend of 5 organic essential oils that mosquitoes just can't stand. As with many of our products, a little goes a long way! Apply a dime-size amount at a time and massage into all exposed skin to keep the bites away.

CANE SUGAR SCRUB: **O, V** Reveal your skin's naturally baby soft look and feel with the sweetness of organic cane sugar that doesn't dissolve while you exfoliate for a deeper scrub that lasts longer, plus shea butter and coconut to sooth and soften skin. Use for hands, feet, and body and rinse away sugar granules when finished. Do not use on your face - opt for the Coffee Scrub!

O: Certified Organic V: Vegan Always Cruelty Free

3-IN-1 FOAMING WASH ALL CLEANSER: Step 1. **AM & PM** Gently remove impurities from the day with the foaming wash all that is gentle enough for your face, hands, or body. For dry or normal skin, we recommend "Earhttone" scent and cleansing only at night, and for oily skin, choose "Citrus" scent and cleanse both morning and night.

VITAMIN C + PEPTIDE FACIAL TONER: Step 2. **AM & PM** Made with organic rose hydrosol to reset skin's pH after cleansing, plus packed with collagen-boosting Vitamin C and Peptides to brighten skin, and organic rosehip for a powerful antioxidant to fight free radicals from everyday environmental exposure. Spritz on wet skin immediately after cleansing both morning and night.

FACIAL GLOW OIL: Step 3. **AM** Made with our favorite, organic Pumpkin Seed Oil penetrates all 7 layers of the epidermis, helping it absorb within seconds w/o clogging pores & provide deep tissue moisturization that nourishes and plumps w/o an oily or shiny finish. Apply a dime-size amount after toning as daily morning moisturizer for all skin types.

TINTED MINERAL CREAM FOUNDATION: Step 4. **AM** Get flawless coverage and a perfect match with our neutral shades that match any skin tone. Lighter shades for highlighting, and darker shades for contouring or even as a natural eye shadow! Made with 31% Zinc Oxide and formulated for full coverage and a satin finish. Apply on top of a moisturizer for dry skin, skip moisturizer for oily skin.

TINTED MOISTURIZER: Step 3. **AM** Knock out 3 steps in your morning skincare routine with just one product! Apply a small amount after toning for your moisturizer, zinc oxide, and makeup all in one! Pro Tip: SKIP the moisturizer underneath as it's built in! Formulated for medium coverage with a dewy finish.

RETINOL ROLLER: Step 3. **PM** Spot check fine lines and wrinkles by rolling on your problem areas such as crows feet, smile lines, forehead, etc. Made with 1% liposomal retinol for a more potent product than store brands without the irritation. Apply after toning once skin is fully dry.

NIGHT ELIXIR: Step 4. **PM** This 2in-1 is your final step in your PM routine for deep hydration that plumps and nourishes while you sleep! BONUS! Shake it up to disperse the papaya and mango fruit extracts for gentle exfoliation and an antioxidant boost (optional)

COFFEE & CHARCOAL FACIAL SCRUB: **v** Smooth, rejuv, and tone in one! Made with antioxidant guava and mango fruit extract. Mix with equal parts water to create a paste, massage into face & neck, allow to dry 20-30 minutes and wash off.
*Pro tip: cleanse skin before applying for maximum contact & benefit.

A NOTE FROM THE FOUNDER:

Heya and welcome to the hive! Our flight pattern is providing the tools you need to live a clean lifestyle and you, my dear, are 17 products closer to buzzing off the chemicals in your daily routine - nice work! Fun fact: BEE-OCHE got its name one day when my honey asked, "Do you really want to make lip balm for a living?" to which I replied, "Yeah, BEE-OCHE!" May you always feel empowered to just bee you. ♥ Brooke
