

Make the Switch Trio

BEE ♥ OCH

ORGANIC DEODORANT

Tired of all those natural deodorants that burn or just plain don't work? Start working WITH your body and not against it. This organic formula is prebiotic and supports the healthy microbes on your pits that help keep the smell-producing microbes at bay. Glides on smooth and lasts all day!

To Use: Use twist up tube to apply a thin layer to clean underarms.

Pro Tip! Staying clean shaven reduces the surface area for smelly bacteria to live.

NATURAL TOOTH POWDER

Speaking of sulfates... check your toothpaste! Our Natural Tooth Powder is formulated with natural clays that absorb toxins, gently polish, and remineralize and strengthen teeth, without using fluoride, foaming sulfates, or artificial colors and flavors.

To Use: Wet toothbrush and tap off any extra dripping water. Dip bristles half way into tin and brush with what powder sticks to your brush. 2 Minutes; Rinse & Spit!

ORGANIC LIP BALM

Hydrate your lips with THE original BEE-OCH product! Made with only 5 certified organic ingredients. This will be the only lip balm your lips will approve of!
